**PERCOLATION TEST PROCEDURES**

The object in conducting percolation tests of soil in which a drain field or seepage pit is to be installed is to determine the length of time required for the soil to absorb one inch of water when the ground has been saturated. The information obtained from these tests together with knowledge of the approximate amount and type of sewage to be discharged, make it possible to determine the size of the drain field.

Holes 4 to 6 inches in diameter have been found to be the most convenient. However, this diameter is not critical, and particularly in very loose soils, it may be easier to dig larger holes. Sides of the holes should be vertical and the depth should be approximately that of the proposed drain field. The holes (2 or more) should be approximately 30 feet apart and in the area where the drain field will be installed.

1. The sides should be roughed up to eliminate packing caused by the shovel or post holes digger, which would reduce the percolation rate. Two inches of the fine gravel should be placed in the hold to prevent bottom scoring.
2. Fill the hold with clear water being careful to avoid washing down the sides of the hole. By refilling if necessary, keep at least 24 inches of water in the hole for at least 24 hours. After the above saturation, start with no more than 12 inches of water above the gravel (remove water if necessary) and being the measurements.
3. Select a reference point from which to measure (a board laid across the mouth of the hold is satisfactory) and measure the distance from the reference point to the level of the water. Enter the time and distance measured on the chart below.
4. Repeat the measurement at the end of 30 minutes. Continue making measurements at 30 minutes intervals for 4 hours.
5. If the water level drops too low for further readings, refill to the 12 inch level at the end of a 30 minute period, measure and proceed as before.
6. If the hole consistently drains in less than 30 minutes make readings at 10 minute intervals.
7. Sketch plot on back of this form and/or on application form.

Percolation Test Results			
Hole 1		Hole 2	
Time	Depth to Water	Time	Depth to Water

I hereby certify that the above percolation tests were done in accordance with the instructions and the results recorded here are true and correct.

Date: \_\_\_\_\_ Signature \_\_\_\_\_

**OWNER – BUILDER INFORMATION**

Dear Property Owner:

An application for a Sewage Disposal Permit has been requested in your name listing you as the “owner of the property improvements specified.

For your protection, you should be aware that as owner-builder”, you are the responsible party of record on such a permit. Sewage Disposal Permits are not required to be signed by property owners unless they are personally performing their own work. If your work is being performed by someone other than yourself, you may protect yourself from possible liability if that applied for the proper permit in his/her name.

Contractors are required by law to be licensed and bonded by the State of California. They are also required by law to put their license number on all permits for which they apply.

If you plan to do your own work, with the exception of various trades that you plan to subcontract, you should be aware of the following information for your benefit and protection:

1. If you employ or otherwise engage any person/s other than your immediate family, and the work (including materials and other costs) is \$200.00 or more for the entire project and such persons are not licensed as contractors or subcontractors, then you may be an employer.
2. If you are an employer, you must register with the state and federal government as an employer and you are subject to several obligations including state and federal income tax withholding, federal social security taxes, worker’s compensation, disability insurance cost, and employment compensation contributions.

There may be financial risks for you if you do not carry out these obligations, and these risks are especially serious with respect to worker’s compensation insurance.

For more specific information about your obligations under federal law, contact the Internal Revenue Service, and, if you wish, you can contact the U.S. Small Business Administration. For more specific information about your obligations under state law, contact the Department of Benefit Payments and the Division of Industrial Accidents.

For information concerning hiring practices and employer information, call the California labor Commission at (916) 225-2265. To verify the contractor’s license number, call the California Contractor’s License board at (916) 225-2640. For Worker’s Compensation Insurance, call the State Compensation Insurance Fund at (916) 243-8400.

A frequent practice of unlicensed persons professing to be contractors is to secure an “Owner-Builder” Sewage Disposal permit, erroneously implying that the property owner is providing his/her own labor and material personally. The permits are required to be signed by property owner only if they are performing their own work personally.

Please complete and return the enclosed Owner-Builder Verification Form so that we can confirm that you are aware of these matters. The sewage Disposal permit will not be issued until the verification is returned.

**KEEP THIS FORM – DO NOT RETURN.**

# RUTH LAKE COMMUNITY SERVICES DISTRICT

The regular meeting of the Ruth Lake CSD Board of Directors will be held on  
Tuesday, April 13, 2021 at 4:00PM at the RLCSD Community Hall  
Located at 591 Van Duzen Road in Mad River.

1. Call to order  
Flag Salute
2. Approval of the agenda for meeting of April 13, 2021
3. Approval of minutes for board meeting on March 9, 2021
4. Public Comment: Members of the public are invited to address the Board on any items *not* listed on the agenda below. No action or discussion will be conducted on matters presented at this time. When addressing the Board, please state your name for the record prior to providing your comments. Please address the Board as a whole through the Chair. Comments are limited to three minutes and must pertain to matters within the jurisdiction of the Board.
5. Supervisor's Report:
6. Correspondence:
  - a. Resignation letter from Dennis Johnson
7. Update of District Projects:
  - a. Old Ruth, Ruth Rec Campground, and Marina launching gates
8. Items for Board Action and Investigation:
  - a. Consider/approve 2017/2018 financial statements audit (discussion with possible action)
  - b. Consider/approve 2018/2019 financial statements audit (discussion with possible action)
  - c. Investigation of RLCSD's relationship with the STVFD (discussion with possible action)
9. Manager's Report and Update:
  - A. Financial-Recognize and acknowledge documents
  - B. Community Hall
  - C. Marina
  - D. Campground
  - E. Leases
  - F. Buffer Strip
  - G. Highway 36 Project
10. New Matters for Board Consideration:
11. Adjournment
